

Complete Skate Kits

SK Series

Includes: 4 x Roller Skates, 2 x Turntables, 2 x Packing Plates, 2 x Handles, 2 x Link Bars, Draw Bar and Metal Storage Box

IMPORTANT:

- All maximum carrying capacities are based for use on a steel surface. Which withstands the pressure of the chain rollers. For safety, the carrying capacities in complete sets are calculated so that 2 skates could support the full load on an uneven surface.
- The Track surface is important for the safe transportation of the load, not the carrying of the skates. Movement on tarmac and concrete is restricted. In these cases it is recommended to put a steel plate of a minimum of 10mm thickness underneath.
- Due to the little effort required to overcome the rolling resistance (4-7% of the total load) precautionary measures must be taken for use on inclined surfaces.

Model:		SK 20	SK 30	SK 60
•Capacity	(Tonne)	20	30	60
•Support Length	(mm)	120	120	130
•Support Width	(mm)	120	120	130
•Total Height	(mm)	108	117	140
•Roller Dia.	(mm)	18	24	30
•Swivel Top Dia.	(mm)	130	130	150
•Weight of Set	(kg)	50	58	92
